

PHILIPS

Clinical Education

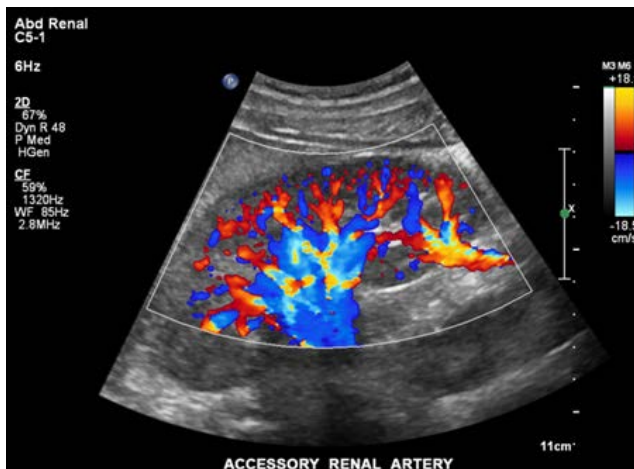

Philips Affiniti Ultrasound **Basic System Training**

Our goal at Philips Healthcare is to provide the clinical education you need to make the most of your equipment investment. The aim of this comprehensive series is to provide the physician, sonographer, and echo cardiographers with a comprehensive library of courses at an exceptional value. Purchase the educational series directly from the Philips Learning Center by clicking **Register Today** next to each curriculum.

We are pleased to offer three NEW e-learning curriculums focusing on the Philips Affiniti Ultrasound System.

In today's healthcare climate, it is critical to use your ultrasound system to its fullest potential. Philips courses are designed to educate customers on the leading edge technologies specific to each system and application.

These ASRT-approved modules are self-paced tutorials consisting of enlightening content and colorful images. There are no prerequisites for these courses. You may register for an individual course or register for an entire curriculum.
