3D Auto RV eLearning

3D Auto RV is the first application with combined innovations from Philips and TOMTEC.

- Auto segmentation, view and landmark alignment using Philips machine learning artificial intelligence

- User Interface, editing tools, display, 3D and 2D measurements using TOMTEC 4D RV Function

This eLearning will review the features and workflow of the 3D Auto RV tool.

At the end of this training you should be able to describe:

- Clinical utility of RV analysis
- 3D Auto RV Workflow
- Editing of 3D Auto RV results

This course is intended for customers who wish to acquire knowledge and skill in utilizing the 3D Auto RV Tool.

This ASRT–accredited module is a self–paced tutorial consisting of enlightening content and colorful images.
